DWIGHT GREEN SPEAKS AT COP MEET IN SALEM

Third Term Dictator- ship Not Wanted In America

Salem, Ill., July 23.—(P)—Declaring "we do not want a third term dictatorship in America," Dwight H. Green told a Republican rally today the issue of the 1940 campaign was "whether the American system of government must be preserved."

"If we analyze we can see that one of the underlying principles of the New Deal has been a change in our government," Green, the Republican gubernatorial nominee, said in his address at the 87th Annual Marion County Soldiers and Sailors reunion. Regulation of business and the farmer through a highly centralized form of government is the goal of the New Deal," he asserted, adding:

"An example of this domination was the recent Democratic national convention at Chicago in which every move was dictated in Washington."

Switching to state politics Green cited four functions required of state government. They were:

- 1.—Education, in which youth is to be given the finest possible.
- 2.—Administration of public institutions with no repetition of the Mexican state hospital epidemic.
- 3.—Administration of relief with elimination of graft and extravagance.
- 4.—Proper administration of old age pensions.

"If elected governor," Green said, "I am going to devote my time in an effort to eliminate the sales tax on food."

In closing, he predicted that on Nov. 3 "the Republican party will have the greatest victory in the history of Illinois."

George F. Barrett, nominee for attorney general, asserted the recent Democratic convention "was taken over by the same form of hoodlum we have known in Illinois for the last seven years."

In an attack on the Kelly-Nash machine, Barrett declared:

"We in Illinois will no longer tolerate the manipulation by Democratic bosses."

Hugh M. Cross, of Jerseyville, spokesman for "house government," compared what he called the "dictatorial tactics of the Roosevelt New Dealers at Chicago with the administrations of Hitler and Stalin."

"The people did not have a chance in that convention to express their heartfelt convictions," he said.

Europe Facing Food Shortage

Jersey City, N. J., July 23.—(P)—John W. Maloney, an American Red Cross representative, returned from war-torn Europe today with a declaration that "Europe faces one of the greatest shortages of foodstuffs in modern times."

Maloney, who toured 18 European countries since February, arrived on the American export liner Exeter from Lisbon. The vessel carried 154 passengers and 1,000,000 in gold consigned to the Federal Reserve Bank of New York from the Bank of Portugal.

"The situation in Europe today gets more appalling by the week as far as food is concerned," Maloney said. "Conditions are very bad. In fact, they are chaotic. There are a lot of people in Europe wondering what is going to happen this winter."

"France looks as though a bunch of locusts had gone over the land," Maloney said he would report his findings to national headquarters at Washington. Red Cross plans have been disrupted, he said, by the rapid progress of the war and by the fact the French did not ration supplies.

Mr. and Mrs. Frank Sanford of Peoria were recent guests at the home of Mr. Sanford's parents, Mr. and Mrs. Ferdinand Muse.

AIRPLANE WEDDING JOURNEY COMES TO GRIEF IN KENTUCKY

Tobinsport, Ind., July 23.—(P)—An airplane wedding trip came to grief today for Policeman Hyland Elam of Owensboro, Ky., and Virginia Wilson of Steubenville, Ohio.

The two were enroute to Frankfort, Ky., in Elam's plane to be married when it fell into the Ohio river above Tobinsport.

Elam, his nose severed, and Miss Wilson, hurt slightly, were rescued by a towboat crew.

The plane sank with \$100, a diamond ring and the wedding clothes of the couple.

LABOR DISPUTE THREATENS TIE UP AT LINCOLN

Director A. L. Bowen
Calls Strike Threat
"Unfair"

Lincoln, Ill., July 23.—(P)—A strike of union teamsters working on a \$410,000 construction program at the state school and colony here was threatened today while state officials protested they could not pay union wages to a group of state-employed truck drivers.

Chesler Awe, business agent of the AFL teamsters and chauffeurs union, declared union members would cease work at midnight tomorrow unless the state agreed to pay the prevailing scale of wages to eleven truck drivers now employed by the state as common laborers.

Awe served notice of the intended strike on Director A. L. Bowen of the state welfare department by telegram. Bowen in a letter of reply called the threat "unfair," asserting the question of paying union wages to truck operators at state institutions was voted down last year by the appropriations committee of the House of Representatives.

Consequently, Bowen wrote, the state has no funds with which to meet the wage demand. He asked Awe to "reconsider your determination to go on a strike."

Bowen said the group of men involved received approximately \$88 a month compared with the union scale of about \$128 monthly. If this scale were paid to truck drivers at all state institutions, the added cost to the state would be \$250,000, Bowen added.

Awe's telegram to Bowen said that in event of a strike the teamsters union would "invoke the aid of the building trades council."

Director Bowen replied that it would be "a very unfortunate thing for the cause of union labor if these men should strike" because "strikes in public charitable institutions are not regarded with favor by the public."

Projects now under way which might be affected by a strike include a \$150,000 tuberculosis hospital, \$150,000 of improvements of women's dormitory buildings and \$110,000 in improvements of the main building of the institution for feeble minded.

Jack Russell Will Stay In Death Cell

Chicago, July 23.—(P)—Counsel for Jack Russell unsuccessfully sought a federal court order today to have the Oklahoma desperado moved from the death cell in the Cook county (Chicago) jail.

The lawyer, Don Rogers, presented an oral motion before Judge William H. Holt. He contended that because Russell is not now awaiting execution but, instead, is awaiting a new trial September 10, he should be moved to other quarters.

Judge Holt declined to entertain the oral motion, instructing Rogers to put it formally in writing if he wished.

Russell was convicted last November and sentenced to death for the kidnap-murder of July 14, 1936, near Ringwood, Ill., of William Scott Hamilton, an Arkansas City, Kan., salesman. His subsequent appeal won him a new trial.

GIRL OPERATORS

Cleveland, July 23.—(P)—One of Cleveland's largest hotels (Statler) announced today it was employing girl elevator operators for the first time because of the job pickup in defense-active industries.

Fifteen men had left elevator posts for jobs in the metal trades in the past few months, Manager Eugene Kelly explained. It was possible to fill the vacancies with other men, Kelly said, but the hotel considered this not feasible since the new employees probably would leave for defense jobs before they could be trained.

Henry Ford

Ottawa, July 23.—(P)—T. L. Church, Toronto conservative, declared during a debate in the House of Commons today that Henry Ford, United States automobile manufacturer, was "a menace to freedom and civilization" who should be kept out of Canada for all time.

ROCK ISLAND ARSENAL HAS 2 YEARS WORK

Employment Expected
To Reach 8,000
Mark Soon

Rock Island, Ill., July 23.—(P)—Capacity operation is assured at the Rock Island arsenal for the next two years and approximately \$12,500,000 will be spent in filling war department orders from the island plant during the current fiscal year, Brig. Gen. C. T. Harris, assistant chief of ordnance and officer in charge of industrial service, Washington, D. C., said on a visit here today.

With him was Lieut. Col. H. C. Minton, ordnance department executive officer.

"Work is piling up for all six of the nation's arsenals as fast as they can take it on," Gen. Harris told reporters, and the war department is confronted with a program beyond any peace-time plan ever before attempted.

Employment at the arsenal, he said, can be expected to reach the 8,000 mark within the next six months, experience being the principal requirement. The force is now nearing 5,000.

Production of materials in the U. S. defense program is following the schedule set by the war department, and there is no move at present to expand plans already outlined, Gen. Harris said. He is in charge of the entire army procurement program.

Prime contracts have been released to at least 200 of the nation's strongest industrial firms, orders placed this month alone totaling \$413,000,000. Orders placed through the Rock Island arsenal amount to about \$1,000,000 a day, Gen. Norman P. Ramsey, commanding officer said.

The war department had \$550,000,000 for production during the current fiscal year, \$500,000,000 of which is allocated to the six arsenals. Largest of the items in the current program is the construction of a \$5,000,000 powder plant at Charleston, Ind., the contract for which was awarded to the Du Pont Co. Another \$20,000,000 will be spent there for one year's production of smokeless powder.

Asked about completion of the new charged semi-automatic rifle of the U. S. army in Springfield, Mass., Gen. Harris informed that production of the weapons will be stepped up to 400 a day within six months. The guns are now being turned out at the rate of between 200 and 240 a day, and are on schedule.

B. C. Heacock, IERC Commissioner Has Resigned His Post

Charges There Is Evidence
Of Political Pressure
On Members

Peoria, Ill., July 23.—(P)—B. C. Heacock announced tonight his resignation from the Illinois Emergency Relief Commission, charging that there is "inescapable evidence of political pressure" being brought to bear on a majority of its members.

Heacock is president of the Caterpillar Tractor Company.

In a telegram to Governor Horner, announcing his resignation, Heacock said:

"It is now obvious to me that a majority of the commission responds to political consideration and pressure as evidenced by recent commission action in diverting relief funds to Chicago sponsorship of WPA projects. Therefore, I find that any value which I may have had to the commission is at an end and so I respectfully and regretfully resign."

Heacock said that the state legislature had passed an experimental law which gave Governor Horner permission to divert state relief funds to locally sponsored WPA projects in an effort to attract savings and to assist communities which were unable to contribute funds.

The commission approved this action, Heacock added, as an experiment, and the governor sanctioned diversion of relief funds to a major WPA project in Chicago and a smaller one in a downstate community.

COUPLE FINED

Kenneshaw, Wis., July 23.—(P)—George Rentschler, 49, Antioch automobile salesman, and Mrs. Marie Lokenbill, 44, were fined \$400 and costs each on six months in the county jail on charges of adultery by Municipal Judge E. J. Ruetz today. They were arrested in a Kenneshaw county resort cottage Thursday night on the complaint of Rentschler's wife. They pleaded guilty.

HEAT VICTIM

Bloomington, Ill., July 23.—(P)—Clara R. Lericke, garment factory workman, became Bloomington's first victim of the current heat wave today. He collapsed at the woolen wear company soon after reporting for work. Corporal Leo B. Hemmelsaid death was due to heat prostration.

Mrs. Alice Rollins, a former resident here, is seriously ill at her home in Pittsfield.

NO PAID SPEAKERS IN HIS CAMPAIGN WILLKIE DECLARES

Cheyenne, Wyo., July 23.—(P)—Wendell L. Willkie said today he had advised Chairman Martin of the Republican National Committee that he wanted no paid speakers in his campaign.

"I believe," Willkie said, "that the cause I represent is the kind of cause in which people who speak for me during the campaign must believe deeply enough to speak voluntarily."

POLLUTION OF RIVER BLAMED FOR DISEASES

Witness Sayr Children
Became Ill in Their
Classrooms

Joliet, Ill., July 23.—(P)—Pollution in the Illinois waterway was blamed at a hearing today for infections of skin and sinuses, nervousness and digestive disturbances of residents along its banks.

Special Master Monte M. Lemann, taking testimony on a petition by the State of Illinois for a temporary increase in the diversion of Lake Michigan water into the Chicago river and sanitary district canals, was told also that:

Children became ill in their classrooms; river men were unable to sleep; no living things could exist in the adjacent waterway; wild ducks refused to alight on it, and the threat of an epidemic was constantly guarded against.

Miss Charlotte Blatchley, teacher in the McKinley school, testified she had been told to send several pupils home after the stomach sickness. She was asked to return tomorrow with records of their names.

Dr. L. J. Frederick, Joliet city health physician, said the city had been fortunate thus far in escaping an epidemic, and Dr. I. W. Lennon testified that infections of nose, throat and sinuses had increased because of the pollution. Dr. Lennon testified that infections in internal organs, likewise termed the condition a menace.

An increase in impetigo, a skin disease, among children living along the waterway was reported by Dr. Charles R. Curtis, a practicing Joliet physician for 40 years. He said many rivermen suffered nervous digestive disturbances and were unable to sleep because of the odor.

Another witness presented by Attorney General John R. Cassidy of Illinois was Adam Christmann, employee of the U. S. engineering office, Chicago district, who testified that last year he saw thousands of dead fish, turtles and crabs in the waterway.

In the seven years prior to 1939, when the flow from Lake Michigan was reduced on orders of the U. S. Supreme Court, the witness said fish had been able to live as long as four or five days in the stream, although that was "a miracle." Wild fowl avoided the waterway because of the stench, he added.

The Illinois petition asks an increase of the diversion from 1,500 cubic feet to 3,000 cubic feet a second, at least until adequate sewage disposal facilities have been completed in Chicago. Several other lake states are opposing it.

National Guard No Place For Politics

Chicago, July 23.—(P)—Maj. Gen. Samuel T. Lawton declared today that politics "has no place" in the Illinois National Guard, which he commands.

"If anyone asks me whether I think it proper for the officers and men of the Guard to engage in political activity, my answer is a positive 'No,'" he said.

"I think that should be true at any time, and especially so in these strenuous, ticklish days when almost at any time, you might say, the Guard may be called into federal service."

General Lawton said he believed his position was "well understood" in the state's National Guard command and membership.

If the National Guard should be called into federal service the recently enacted Hatch act, he said, undoubtedly would apply to numerous officers and men and "whether it does or not, we will try to abide by its provisions."

WOMAN CONVICT ESCAPES

York, Neb., July 23.—(P)—Emily Van Sickle, 59, serving a 10-year manslaughter sentence for starving her 6-year-old step-daughter to death in 1938, escaped during the night from the State Women's Reformatory here. Superintendent Hattie E. Bowley said the former Farmington, Mo., woman was discovered missing from her locked room this morning.

Her husband, Charles Van Sickle, is serving an eight-year manslaughter sentence in the Nebraska penitentiary. They were charged with neglecting to provide proper food for the girl, Norma Jean, who died at a Lincoln, Neb., tourist camp Aug. 3, 1938.

Another girl, Alma Lee, found in serious condition, recovered.

NO MAN IN U. S. INDISPENSIBLE WILLKIE SAYS

Republican Candidate
Delivers Sharp Jabs
At New Deal

By William B. Ardery
Cheyenne, Wyo., July 23.—(P)—Wendell L. Willkie, enjoying himself today in the "whoop-it-up" atmosphere of Cheyenne's Frontier Days Rodeo, jovially observed that President Roosevelt's comment on Democrats who have announced support for Willkie showed "that the president is thinking of something besides the affairs of state."

The Republican presidential nominee let go some of the sharpest jabs he has delivered at the New Deal and President Roosevelt since beginning a pre-campaign vacation in Colorado.

He told a platform crowd at Brighton, Colo., that "in this country there is no such thing as the indispensable man."

At Greeley, Colo., he told another station audience the United States would go "down the same road as the totalitarian states" if the people follow political "machines."

He mentioned specifically the Kelly-Nash machine and the remnants of the Fendegast machine and the "Guffers."

At the Frontier Park Rodeo arena, Willkie, commenting on President Roosevelt's press conference remarks this afternoon on Democrats who have pledged support to him, told reporters:

"The president is going to make remarks about a lot of Democrats before this campaign is over. This shows that the president is thinking of something besides the affairs of state."

At Brighton, Willkie said:

"I know it was a series of circumstances that caused me to be nominated for president."

"I know there are thousands of men qualified for my position, public or private."

"In this country there is no such thing as the indispensable man."

"The very essence of democracy is that it develops initiative and the energy that is the life of the nation. It is this that is the life of the nation."

In his talk at Greeley the Republican nominee observed:

"There are few places in the world where we can gather as we do here today—uncontrolled by anybody."

He said he thought the American way of life never could be preserved if people followed political machines.

"I ask you to send me to Washington as your uncommitted representative who will work only for the preservation of our democratic life."

Roosevelt Speaks His Mind About 4 Willkie Democrats

President Declares Former
Senator Reed Qualified
To Be Leader

Hyde Park, N. Y., July 23.—(P)—President Roosevelt donned political harness today long enough to speak his mind about Senator Edward R. Burke, Lewis W. Douglas, John W. Hanes and former Senator James A. Reed—four anti-British term Democrats who have teamed up with Wendell L. Willkie.

Prompted entirely by press conference questions, Mr. Roosevelt said he understood that the Democratic party had bolted from Burke; that the administration felt the minds of Douglas and Hanes, former government officials, ran more to dollars than to humanity; and that Reed was well qualified to lead disident Democrats.

The president was first asked whether the word "bolt" properly described Burke's offer of support for Willkie. He made the remark about the party bolting Burke and then grinned until a roar of laughter at his answer had subsided.

Burke was defeated for renomination in the Nebraska primary by Gov. R. L. Cochran.

Mr. Roosevelt was reminded, he said, of Lewis Douglas and Johnny Hanes by an inquiry about how he regarded "this dissent of Jeffersonian Democrats."

Douglas did not vote Democratic four years ago, Mr. Roosevelt asserted, and he doubted that Hanes did, either. He added that they were honorable and amiable young men who formerly were in the government service.

Mr. Roosevelt was told that Reed had called a meeting of "grass root Jeffersonian Democrats" in Chicago.

"Again," he retorted, "it seemed to him, he added, that Reed, who once represented Missouri in the senate, had done much the same thing in 1893 and 1895 and maybe in 1928 and so was well qualified from experience."

REPORT NET PROFIT

New York, July 23.—(P)—Gannett Co. Inc., and wholly-owned subsidiaries reported today for six months ended June 30 consolidated net profit including equity in undistributed net profits of \$645,000 in the first half of 1939.

Britain Must Brace Herself For German 'Tornado of Terror'

BRITONS AWAIT HITLER'S START OF BLITZKRIEG

Britain Is Barricaded
Behind Growing Wall
Of Preparedness

By the Associated Press
London, July 23.—(P)—Britain, barricaded behind a growing wall of preparedness, waited watchfully but confidently tonight for Adolf Hitler to start his blitzkrieg.

Reports in neutral sources of "greatly increased activities" in Dutch and Belgian dockyards and railways indicated that her great test may not be long coming.

These reports, unconfirmed in British quarters, said the Germans apparently were concentrating military supplies in the western lowlands—a logical jumping off place for a mass invasion.

Taking stock of her position against efforts of German warplanes and commerce raiders to create a starvation blockade, Britain found herself strong in ships, food, men and wealth.

Naval experts declared the island kingdom had more destroyers now than when the war started, despite the loss of 24.

Even if the Germans intensify their submarine campaign, Fleet Admiral Lord Woolton declared, Britain will not starve because "we have stocks to stand a long siege."

Lord Woolton asked American newspapermen tonight to tell the United States there is no food shortage in Britain "because people over there still want to send us parcels of food."

He estimated that the harvest in continental Europe would not be more than 70 per cent of normal this year and declared that "this business of starving people out may work the other way around—we've still got a navy."

War Minister Anthony Eden reported that long-time American residents of Britain are forming their own "home guard."

British recognition of a new government for "Free Czechoslovakia," headed by Dr. Eduard Benes, a former president of the dissolved republic, was announced by the Czechoslovak national committee.

Warplanes roared both ways across the English Channel.

Nazi planes, apparently picking British harbors as their principal targets, bomber ports from Scotland to the Thames Estuary and British fighters repeatedly raced out to sea, apparently to intercept aerial squadrons attacking convoys.

An admiralty tabulation for the week ended July 14 acknowledged that "enemy action" had sunk nine British ships totalling 33,953 tons, four allied ships totalling 7,525 tons and six neutral ships totalling 20,734 tons.

In their own raids, the air ministry said, British fliers Monday sank a German anti-aircraft ship in a raid on the Norwegian port of Bergen, hit German airfields, factories, barge concentrations and docks.

James Russell Is Sent To Prison

St. Louis, July 23.—(P)—James Russell, Chicago, was sentenced today to 10 years in prison following his conviction by a jury in Federal John Caskie Collier's court on a charge of interstate shipment of stolen property.

Russell was one of three men arrested Feb. 8 near St. Louis by state police who found \$18,000 worth of jewelry in their car, which overturned after a chase on ice-covered roads. The jewelry had been taken from Irving Glickin, Hollywood, Calif., salesman, in a holdup on the outskirts of Dallas, Tex.

The three men escaped from an ambulance after the wreck, but Russell was caught at Elgin, Ill. Conrad Selin, ex-convict of St. Paul, Minn., also was re-arrested and sentenced to eight years in prison on his plea of guilty. The third man still is at large.

RESCUES WOMAN

Cedar Rapids, Ia., July 23.—(P)—Iowa's Lieutenant Governor B. B. Hickenlooper was credited today with saving Mrs. R. F. McGinnis of Cedar Rapids from drowning in the Cedar Rapids Country Club swimming pool.

Mrs. McGinnis went beyond her depth in the pool while lights were still on but the guards off duty. When called for help the lieutenant governor raced across the pool and pulled her out.

AB JENKINS ENJOYS BUSMAN'S HOLIDAY AFTER LONG GRIND

Salt Lake City, July 23.—(P)—Talk about your busman's holiday! Ab Jenkins came home today after shattering 21 world's land speed records on Bonneville Salt Flats in a 24-hour grind—driving his own car.

The Salt Lake City mayor, his daughter Ruth said, refused to allow other members of the family to take the wheel for the 120-mile trip.

Prize Tickets Are Given Law Abiders In Champaign, Ill.

Dozen Persons Receive Merchandise Donated By Merchants

Champaign, Ill., July 23.—(P)—A group of pedestrians started to cross Main street just as the "go" light blinked off. All but one raced across the busy thoroughfare anyway.

The lone observer of safety regulations, Mrs. Robert B. Browne, returned to the sidewalk, waited until the green signal flashed on and made the crossing in leisurely fashion.

When she reached the other side, a patrolman handed her a ticket. It entitled her to \$15 in merchandise at a department store as a reward for her compliance with the laws.

That incident was an example of how the city has reversed the old American "beat-em-out-or-summon-em-to-court" policy during this week's safety campaign. Instead of condemning their efforts to cracking down on violators, the policemen give prize tickets to motorists and pedestrians who comply with the spirit and the letter of the municipal rules.

A check today showed that a dozen persons had received awards worth between \$5 and \$20 in goods donated by merchants. It disclosed, too, that no reportable accident had occurred since the drive began.

A sound car cruise about the town from its loudspeaker comes commendation for the law abiders and criticism for those who err.

From the driver's seat, H. S. Hunter, an expert in charge of the program, watched a woman autoist give the proper hand signal and execute a perfect left hand turn at an intersection. He presented her with one of the coveted tickets.

Shortly after the proud recipient drove away, an officer accompanying Hunter pointed to a sign at that corner. "No left turns."

INVESTIGATE THEFT OF METAL TOOLS, DRILLS

New York, July 23.—(P)—Repeated large-scale thefts of high-speed drills and metal-cutting tools—essential in the manufacture of motors and munitions—from warehouses in New York, Cleveland, Chicago and Detroit in recent months are being investigated by police and federal agents, it was learned today.

Officers of the firms expressed the opinion that the drastic rise in value of the delicate tools—due to demands for export to England and France and for the United States re-armament program—had drawn the attention of an organized burglar ring. A similar epidemic of tool thefts occurred during the last war, they said.

COMPENSATION BENEFITS

Chicago, July 23.—(P)—Unemployment compensation benefits totalling \$44,244.47 have been paid to Illinois workers since the first check was issued one year ago tomorrow, State Director of Labor Martin P. Durkin announced.

He said \$308,241 checks were written in the year's time, averaging \$13 for total unemployment.

Durkin said the money paid out went "directly into the hands of Illinois business," as evidenced by the fact that 92 per cent of the returned canceled checks had been cashed with grocers, butchers, druggists and other retailers.

SPECIAL MACHINERY

New York, July 23.—(P)—Paul G. Hoffman, president of Studebaker Corp., said today the extreme specialization of this mass production era had made the huge automobile plant of the United States much less adaptable to turning out arms than it was in 1917.

"Virtually all of the machinery in an automobile plant of the present day," he said in an interview, "is special-purpose machinery, good only to do the thing it was made for."

Twenty-three years ago a much larger proportion of automobile machinery was of a general purpose type.

SENT TO PRISON

Lafayette, Ind., July 23.—(P)—Judge Wirt Worden today sentenced Theodore Ploehn, 19, of Battle Creek, Mich., to one to 10 years in Pendleton state reformatory for automobile theft.

U. S. Army officials said they would press charges against Ploehn later. They said he had been from Fort Sheridan, Ill., last month.

REJECTION OF HITLER OFFER TEARS OFF LID

Nazi Sources Indicate
Weapons Will Now
Speak

Berlin, July 23.—(P)—Britain must brace herself now against a made-in-Germany tornado of terror, which Nazi sources indicated tonight, adding that defiant rejection of Adolf Hitler's peace-or-destruction offer had "torn the lid off."

Henceforth, they emphasized, "weapons will speak." Emphasizing this threat, the Nazi airforce again raided Scotland and England.

With one accord the German press, radio and semi-official spokesmen hammered home the threat that Foreign Minister Lord Halifax's refusal to talk peace and the latest British air raids on Germany had definitely killed any prospect of settlement.

Exactly when the long-threatened furious wholesale air-pounding of England would begin remained a mystery. Germany as well as England is aware that only a few weeks more of good summer flying weeks remain.

For the first time since the end of the French campaign, DNB, the official German news agency, came out with a "front report" such as it issued daily during the struggle in the west to summarize military progress.

Supplementing these warnings was the continuation of nightly air raids over England. "The high command announced that last night and early today Nazi bombers had raided the length and breadth of England and Scotland."

In preparing full-speed for the grand assault against Britain, Germany turned afresh toward the Balkans with the double aim of preventing inopportune disturbances there and of arranging the basis for a new European economy.

In line with this program, Rumania's premier and foreign minister will confer with Foreign Minister Ribbentrop at Salzburg Friday, while a week-end conference in Berlin will give Bulgaria's premier and foreign minister a chance to present their country's view of Balkan problems. (Bulgaria particularly desires return of the southern Dobruja, from Rumania.)

As to the new Russian expansion westward via absorption of the Baltic triplets, Estonia, Latvia and Lithuania, an authorized source observed that "German and political interests are in no wise affected by what the Baltic states and Russia decide among themselves."

Tax Lien Is Filed Against Union Boss

Chicago, July 23.—(P)—A federal income tax lien of \$241,058 against Michael J. Carrozzo, boss of the Chicago Common Laborers Union, was filed in federal court today by Carter H. Harrison, collector of internal revenue.

The lien represented the government's claim for unpaid taxes and penalties for the years 1937 and 1938. It is applicable against any real or personal property of Carrozzo that the government might locate in this district.

Carrozzo is under indictment for alleged violation of the anti-trust law from Chicago area building operations.

Authoritative federal sources disclosed two weeks ago that he had paid the government nearly \$500,000 in recent years in an effort to settle income tax affairs.

WE WANT WILLKIE

Cheyenne, Wyo., July 23.—(P)—Gov. Ralph L. Carr of Colorado led a quartet today in singing a new Republican campaign song:

"We Want Willkie."

During a train journey from Denver to Cheyenne, the governor and his singers moved from car to car of a special train which carried Wendell L. Willkie to the Cheyenne Frontier Days Rodeo. In each car they sang:

In a Different Language

Each day it is becoming clearer that the dictatorial countries of Europe speak an utterly different language than our own.

The recent break between Chile and Spain illustrates the case with startling clarity.

In Madrid it is one of the chief reasons for the relations with Chile is that in a public meeting in Chile orators "had the villainousness to insult Spain and its glorious Caudillo" in a speech broadcast by the official radio and listened to by high officials.

Mark what Spain assumes. She assumes that in some way beyond understanding to western hemisphere minds she has the right to control what is said in a public square in Chile, thousands of miles away.

The United States has taken some pretty bad shellackings in the Eu-

ropean press. And though nothing appears in much of the press except by official sanction, the United States inclines to shrug its collective shoulders and say, "Well, after all, it's their country. It's none of our business what they print in their papers. We'd rather it was favorable, but if it isn't—well, we can't help that."

But the standpoint of the dictatorial countries is entirely different, from Japan to Germany to Italy. One of the chief Japanese complaints against China before the three-year "incident" began was that the Chinese papers, Chinese speakers, Chinese wall-placards, were unfavorable, sometimes even impolite, toward the Japanese. Each German conquest was preceded by a storm of protest in the German papers that "over there they are saying nasty things about us." Throughout Latin America German representatives have protested often against unfavorable publicity given them and their cause.

One of the attributes of sovereignty is the right to control, or to keep free, public utterance within the borders of the sovereign state. Any attempt from abroad to abrogate that right is as arrogant an imposition as to march in and seize territory.

So it seems to us. But not to "out-law" countries. They feel that they, and only they, have the right not only to govern utterance in their own lands, but to control it throughout the world.

They speak, thus, a different language from our own. For we believe that in the long run the one way to win friendly opinion and comment in other lands is to deserve it.

Tin-Plated Independence

Travelers to South America in recent years all heard about Bolivian tin. The ore was mined there, shipped all the way to Great Britain, melted and turned into pins, and then shipped in that form to the United States, the greatest consumer.

"Is this a system?" they wondered, in the word of Milt Gross' famous character.

Well, it wasn't, and now something is being done about it. Two companies already have experimental tin smelters in operation here, and others are looking into the matter actively.

There is Bolivia, a poor country desperately needing trade, and subject to strong European influence. Here is the United States, world's greatest consumer of tin, desperately needing commercial relations with South America. Far out in the Pacific, the British Malaya, virtually undefended against possible Japanese encroachment, are the remainder of the world's big tin deposits.

What are we waiting for?

Letter From New York

By ELEANOR OLNSTEAD MILLER

The windows of my room look out on the towers of the unfinished Cathedral of St. John the Divine. It is an unusual experience to see one of the world's greatest cathedrals in the process of construction. It has been in that process since 1892, and no one knows how many more years it will be before it is completed. But year by year more and more of the cathedral is ready for use. Every bit of additional construction is paid for before it is begun and there is not one dollar of debt on the church. There are many large gifts, to be sure, but there are thousands of small ones given by the unceasing flow of visitors who marvel at the tall smooth fluted columns, the stained glass windows, the solemnity of the edifice.

I attended an afternoon service in the church while the sun, with rare tenderness, came through the blue and amber and scarlet of the magnificent stained rose window which is just over the center door. Many competent critics claim that this and the other windows in the nave are comparable to the work of the great glass makers in the old Cathedrals, the secret of whose art had for centuries seemed to be lost.

The Right Reverend Mikell, Bishop of Atlanta, conducted the service, his powerful voice filling even the heights of the enormous nave. The choir of men's voices echoed from the unfinished sanctuary.

Many come to view the cathedral with its bronze doors opening to receive them all day and every day. These doors are a striking contrast to the gray stone and are beautifully decorated with simple things, such as flowers and fruits and leaves. Fewer people come to the Sunday services, but perhaps all come to worship as pilgrims to one of the greatest cathedrals of the world.

When complete this Gothic structure will have a seating capacity of 15,000 and standing room for 40,000. But mere size is no criterion of the beauty of the exterior and interior which visitors and worshippers find in the church.

Truly beauty has its value. When we shudder to think of what is happening to the Cathedrals and religions of other lands, we know that no sacrifice can be too great to keep forever the Cathedrals and beauty of worship alive in our own country.

Of the 250 islands in the Fiji group, only one-third are inhabited.

Young Woman Had Adventurous Time When France Fell

Jacksonville People Learn Of Miss Mary Barker's Flight From Paris

Mr. and Mrs. James Weir Elliott, 600 West College avenue, have received an interesting letter from Mr. Elliott's cousin, Mrs. Anna Devine Barker, of Birmingham, Ala., telling of the experiences of her daughter, Miss Mary Anna Barker, who was in Paris at the time of the German occupation.

Mrs. Barker and daughter have a number of relatives in Jacksonville, and Mrs. Barker also has many friends here. She attended the Jacksonville Academy and while in this city resided with her aunt and uncle, the late Mr. and Mrs. Frank Elliott, of West State street.

Miss Mary Anna Barker remained in France following the outbreak of the war, in her position as fashion artist for New York buyers at the Couturier, and also free lance artist for the Paris editor of the American Magazine, Mademoiselle, so popular with the younger set. Her material, if it got through the censor before the Germans took Paris, will be in the August number of Mademoiselle, her mother stated in the letter.

Miss Barker has been doing Red Cross work, "Canteen" in Paris up until the day before the Germans took Paris.

The Birmingham paper has the following article, under the heading, "Mary Anna Barker Writes Parents of Her Flight":

"Miss Mary Anna Barker, Birmingham girl who has been in Paris as a fashion artist for two years, is apparently safe in the vicinity of Biarritz, in German-occupied territory."

"Mr. and Mrs. J. H. Barker, 1448 Milner Crescent, had expressed grave concern over their daughter's whereabouts until they received a letter by way of Clipper from her today, written after July 1st."

"The letter indicated that on June 21, one day before the German French frontier was signed, Miss Barker was in St. Jean-de-Luz, a coast town at the Spanish border in the vicinity of Biarritz and Bayonne."

"Miss Barker and three associates, she wrote her parents, 'waited until the last call, because we could not believe—we still cannot believe—that the Germans are in our Paris.'"

"It took us a whole day to get to Fontainebleau, normally a 50 minute drive from Paris and a day after we left, the Germans were there."

"When we reached St. Jean-de-Luz, we were four exhausted creatures, having spent four days and nights on the way from Paris. With no accommodations available, we slept in the car and in a hay stack by the road side one night."

"At Fontainebleau, with gin-gerbread for breakfast. Arriving finally at Biarritz, we went to the Miramir, a tremendous hotel on the beach, and there we met an officer, who told us that arms had been laid down."

Miss Barker is a graduate of Birmingham, Southern College. Mrs. Barker stated in her letter that only two letters had been received by Clipper, one before and one after the occupation, and that no communication can be sent to her daughter by cable, nor can funds be sent. The letter further stated that the Germans were at present "quite polite," and have left the group unmolested, although, they have food rations, cards, etc. Twelve are in the group at the villa, and there are a number of Americans enroute to Spain and home.

Jordan Family Has Reunion With 95 Members Attending

Make Pilgrimage to Grave Of Alexander Jordan, Pioneer Settler

Ninety-three persons from a large number of towns registered Sunday at the second annual reunion of the Jordan family at Nichols park. Dinner was served in the pavilion, and during the afternoon 13 cars made a pilgrimage to Union cemetery, 15 miles northwest of Jacksonville, and visited the grave of Alexander Jordan who settled in Morgan county 93 years ago.

Edward J. Jordan and family, 630 Hardin avenue, are the only direct descendants of the original Morgan county pioneer family who now reside in this community. Other descendants came from Farmersville, Morrisville, Girard, Raymond, Auburn, Springfield, Bloomington, Monmouth, Peoria, St. Louis, Washington, D. C., Tucuman, N. M., and Phoenix, Arizona. E. J. Jordan, 76 years old, is a resident of Jacksonville, was the oldest person at the reunion, the youngest being the four months old daughter of Mr. and Mrs. Bernard Jordan of Raymond.

Officers elected are Edward J. Jordan, Jacksonville, president; Jerome Jordan, Farmersville, vice-president; Mildred Jones, Springfield, secretary; Mary U. Jordan, Farmersville, historian.

Guests at the reunion commented on the beauty of Nichols park and its conveniences for such a gathering. The visitors from other cities and states also were favorably impressed by the city of Jacksonville.

Pale Hose Whip Red Sox 8 To 7

Chicago, July 23.—(P)—Reaching the 500 mark for the first time this season, the Chicago White Sox defeated the Boston Red Sox, 8 to 7, today, mainly on the timely hitting of Julius Siders.

After driving home five runs, Siders scored the deciding marker himself in the last of the ninth on Mike Tresh's single.

Prior to this Siders singled Joe Kuhel home with Chicago's first run in the fourth, homered off Herb Hash with one runner aboard in the sixth, doubled two more runs across the plate in the seventh and counted the game-tying marker himself on Tait Wright's single in the eighth.

Chicago's fifth straight triumph.

Jimmy Fox, Boston first baseman retired from the game in the third inning with a recurrence of a knee injury and in the sixth Gene Desautels, Red Sox catcher, pulled a back muscle and was replaced by Johnny Peacock.

Totals: Chicago 8, Boston 7.

SENATORS WIN

Detroit, July 23.—(P)—The league-leading Detroit Tigers dropped a 6 to 3 decision today to the Washington Senators, who were sparked by the seven-hit pitching of southpaw Kendall Chase.

Although Dick Bartell and Rudy York both nicked Chase for four-batters, the left-hander kept the Tiger blows well scattered.

A ten-hit Washington barrage, which included four doubles, and a triple by Cecil Travis, drove Johnny Gorsica to the showers with the score 5 to 1 at the end of the sixth.

Gerald Walker, a former Tiger, lapped three singles at the expense of his old mates in five trips to the plate.

Indians Win
Cleveland, July 23.—(P)—Al Milnar pitched his 13th victory of the season tonight as the Cleveland Indians edged the Philadelphia Athletics 1 to 0, to draw within a half game of the league leading Detroit Tigers.

Weatherly singled home the deciding run in the hurrying duel between Johnny Babich and Milnar, each giving up six hits.

Both flingers fanned four, but Milnar got in some tight spots through lusing five walks. The Cleveland southpaw has lost five games.

The Athletics threatened in the fourth as Ben Chapman misjudged Al Brancato's drive, allowing it to go for a triple, but the shortstop was caught attempting to steal home.

The winning run came in the fifth on Ruffie Hemslay's single, Milnar's sacrifice and one of Weatherly's three singles.

Browns Win
St. Louis, July 23.—(P)—The St. Louis Browns walloped the New York Yankees, 9 to 5, tonight in a free-hitting contest in which both starting pitchers were batted from the hill before the 11th, paying customers had settled into their seats.

The Yankees pounded Emil Bidilli for three runs in the first when Charley Keller's double sent two runners across, but the Browns matched the outburst in their half as Walt Judnick hit the first of his two homers with a mate on base.

Bidilli gave way to a pinch hitter in the first and Steve Sundra who

10 From City Drive To Merrimac Cave

Report Interesting Visit To Caves Along River; See Rock Formations

Five couples from this city motored to the Merrimac Caverns, south of St. Louis Sunday. The caves, located at Stanton, Mo., about 80 miles south of St. Louis, proved to be well worth seeing, the local people report. There are four levels to the caverns, the one at the bottom being large enough to park 300 cars.

Those in the party included Mr. and Mrs. Dave Shadid, Mr. and Mrs. Lloyd Ross, Mr. and Mrs. Carl Ore, Mr. and Mrs. Wilbur Jeffries, and Mr. and Mrs. Ray Wilday. They started early, ate breakfast at Alton, and drove to the caves via U.S. 66. They returned home by way of Jefferson City.

The visitors were informed that the lower level of the caves was used as a powder factory during the Civil War. A spring that releases 5,000,000 gallons of water per day flows in the caves. The rock formations have been flood-lighted and are of unusual beauty.

Brooklyn Drops 2 Games To Redlegs

Brooklyn, July 23.—(P)—The brash Brooklyn Dodgers got into another brawl and out of the National League pennant picture in one long, turbulent scene today, dropping a double-header to the Cincinnati Reds, 4 to 3 in 11 innings, and 9 to 2 in nine.

Cincinnati's conquest in front of a noisy, capacity crowd of 40,000 at Ebbets Field increased the margin separating the two clubs to seven full games.

The first fracas was as wild and furious as any adventure story, climaxed by a fight between Lonnie Frey of the Reds and Pete Coscarart of the Dodgers in the eighth inning.

The Reds were trailing 2 to 2 at the time, and had Bill Werber on third and Frey on first as the result of a single, sacrifice and an error. Then Frank McCormick grounded to Peewee Reese at short, who threw to Coscarart as Frey came sliding into second high and hard to forestall a double play.

As soon as Coscarart got his throw away from Frey and dived at each other and the players of both teams rushed into the melee. Pitcher Whitlow Wyatt of the Dodgers, who still is bothered by a knee injury he received in a collision with Frey last summer, got in several good licks with his glove as Frey lay prostrate on the ground.

Pitcher Gene Thompson of the Reds was spiked on his right ankle and two stitches were necessary to close the gash. Coscarart also was spiked on the left knee in the scuffle, but not seriously.

When order was restored, Coscarart and Frey were out of the game by direction. Thompson was out with his injury and the score was tied, Werber having tallied on the critical play.

Cubs Trim Bees
Boston, July 23.—(P)—Rookie Ken Raffensberger's southpaw slants baffled the Bees in all but the first inning today and the Chicago Cubs opened the Boston club's long home stay by subjecting it to a 6-1 drubbing.

Raffensberger gave the Bees eight hits and had four strikeouts while limiting his victims to one base on balls. The Cubs called the game away against Joe Sullivan, the Bees' young pitcher, by combining four singles and a pass for three runs in the first inning. Hank Leiber drove in two of them by connecting with the bases loaded.

The Cubs loaded the bases before Sullivan could get any of them out in the second inning, but Al Javery took over the mound and worked himself out of the hole at the cost of

85 Attend Wilcox Family Gathering

Reunion is Held Sunday At Home of Otis King In New Berlin

New Berlin.—Eighty-five members of the Wilcox family held their annual family reunion Sunday at the home of Mr. and Mrs. Otis King. Relatives from Phoenix, Arizona, surrounding towns and from New Berlin attended.

Mr. and Mrs. James Colvin and family arrived in New Berlin Saturday from their home in California for a visit with relatives. The Colvins are former residents of New Berlin.

Mrs. Irene Clark of Muscatine, Ia., was a guest for the past week of Jesse Carter.

Mrs. LeWitt Montgomery and son DeWitt Jr., and Miss Margaret Canterbury, of Springfield, are guests this week of Mr. and Mrs. A. E. Washburn.

The annual chicken fry of St. Mary's Catholic church will be held on Wednesday, July 24, at 8 o'clock. Ruth Taylor and Vernita Brunk are spending this week at East Bay camp, Bloomington, attending a Youth's Conference.

Miss Kate Larson was a guest Thursday and Friday of relatives in another run. The Cubs added two more tallies in the eighth on Leiber's double, two more singles and a wild pitch.

Zeke Bonura reported to the Cubs in time to take over the first base assignment. He beat out a roller for a hit and handled five fielding chances cleanly.

Giants Beat Bees
New York, July 23.—(P)—Carl Hubbell found the electric lights to his liking again tonight and pitched the New York Giants to a 9 to 1 decision over the Pittsburgh Pirates, holding them to five hits.

The veteran southpaw, who made his debut as a night game star only last week at Pittsburgh with a six-hit victory, never allowed a run after the first inning, and that one was unearned.

He had the help of a 17-hit attack led by his roommate, Mel Ott, with a home run and two singles good for five tallies.

Coach Jake Flowers was chased from the Pirate bench in the seventh for taunting Umpires Larry Goetz and Beans Reardon.

INCREASE PRODUCTION OF U. S. CRUDE OIL
Tulsa, July 23.—(P)—Daily crude oil production in the United States increased 12,888 barrels to 3,576,872 for the week ended July 20. The Oil and Gas Journal said today.

Biggest gain was in Texas, up 24,708 to 1,168,936. East Texas increased 149 to 374,693. Oklahoma, 2,950 to 414,825. Kansas, 15,750 to 169,850. and Louisiana, 3,980 to 285,964.

California declined 8,750 to 617,500; eastern states 1,150 to 104,600; Illinois, 21,000 to 444,116; Michigan, 67 to 54,066; and the Rocky Mountain area, 3,665 to 62,650.

W. A. Scott of Greenfield transacted business here Sunday.

Two Springfield teams will cross bats tonight with two Jacksonville teams on the Lake Mauvalterra softball diamond. At 8 o'clock the Paul G. Dixon Girls will meet the Smith Hardware team, and at 9:15 Myers Bros. will play the Samuel Clothiers. Preceding these games the Lucky Boy Bakers and the Coca Cola Bottlers will play at 4:45.

The meet between Smith Hardware Girl and the Springfield Dixons is always eagerly anticipated by the Jacksonville fans as both teams play an excellent brand of girls' softball.

The Samuel Clothiers are considered one of the strong teams of Springfield players where they are members of the "A" League. They will provide Myers Bros. with keen competition.

ALL GRAINS SUFFER
DECLINES IN PRICES

Chicago, July 23.—(P)—Closing out of July grain contracts today brought price declines to all grains.

July delivery of wheat, oats and soybeans dipped, with the latter dropping sharply. Today was the last day of trading in July futures. In wheat, especially, there was an open interest at the start of trading of 4,409,000 bushels. Contracts can be filled now only by actual delivery of grain.

Blistering heat prevailing over the spring wheat and corn belts was watched carefully by traders.

Receipts were: Wheat 460 cars, corn 77, oats 36. Wheat closed unchanged to 1 cent higher than yesterday's finish, September 73½-74, December 74½-75, and corn was 1 cent lower to 1 higher, September 60½-61, December 59½-60, oats 1½ down, rye unchanged to 2½ advanced, soybeans 1-1½ cents down, and lard 10-12 cents lower.

New York Stock Market

New York, July 23.—(P)—Buyers picked off a few afloats and specialties in today's stock market but left most leaders to shift for themselves.

Steels and motors were given an early light lift. Some eventually backtracked. Fractional price changes either way ruled at the close. It was another one of the slowest sessions since 1918, transfers approximating 230,000 shares.

European war influences, as in the past several weeks, continued to receive the blame for the do-nothing attitude of the majority of traders. Thoughts of a quick German smash at England again were uppermost in boardrooms as the British turned thumbs down on Hitler's "peace or destruction" manifesto.

On the other hand, the lack of any real selling urgency was attributed to belief of many that business, while possibly flattening out during the coming "dog days," is threatened with no actual setback. The flow of corporation earnings statements, notably from airplane manufacturers, revealing sharp profits upturns, proved a sustaining straw.

Douglas Aircraft advanced more than a point at the best.

In Grandma's day one of the
worst things you could say
about a girl was that she was
flippin'. Modern girls, however,
are putting a new twist on an
old phrase now that the war
seems to have taken a long
term lease on Europe. The
flightier section of Uncle Sam-
my's nieces has organized an up-
per air contingent to be
known as the Women Flyers of
America. Already 170 girls
(glamor and otherwise) have
joined, and the W. F. A. ex-
pects to sign several thousand
modern Barbara Fritchie's by September.
Probably the next step is postal
colored parachutes trimmed in
lace.
A Boston street car moter-
man was struck by his own
street car. Maybe he was try-
ing to prove that only the brave
deserve the fare.
You are only as old as you
look and so is your house! Your
house shows its age, too—inside
and outside! Now is the time
to modernize—add new room-
paint, reshingle. You'll be sur-
prised how inexpensive it is and
it can be done on the FHA loan
plan. All building materials are
available at the Wright Lumber

SERIAL STORY

FLYING CO-ED

BY MARY KINNAVEY MOORE

COPYRIGHT, 1940, NEA SERVICE, INC.

YESTERDAY: The engine, realizing Anne could identify them, trail her as she fled through the storm. Dick drove by in time to save her. He advised her not to return to the tavern, takes her home. Anne is definitely through with Tony.

CHAPTER VIII
THAT Anne's alert mind, her poise, and her ease; were to be of immeasurable help in making a pilot of her, Captain Douglas knew during her first instruction period, a few days later. He had feared that the distressing events of the Villa Aloha incident might still be worrying her and would affect her reactions to flight training. But, if she were worrying, she did not show it.

"Can you name these instruments for me?" he asked after they were in the cockpit, safety belts securely fastened.

"I believe I can." Pointing to them, each in turn, Anne recited: "Magnetic compass, air speed indicator, turn and bank indicator, rate of climb indicator, altimeter, tachometer, and—she hesitated for a moment—"clock."

"Fine," Dick complimented her. "And the name of each of these explains its purpose, except the tachometer. What is it?"

"Oh, I really read up on that," Anne laughed. "It measures the revolutions per minute of the airplane engine."

"Good. These are the instruments you'll use to get your instrument rating from the Civil Aeronautics Authority, but your directional gyro and your artificial horizon also are standard equipment."

"Isn't blind flying, instrument flying?" Anne asked.

"Yes," was the answer. "You'll learn a lot more about these later. Now let's see about the controls."

THE plane was still on the line, its engine not yet running. Dick Douglas lightly grasped the stick and put his foot on the rudder bar, as he instructed Anne.

"Get the feel of these, as I put pressure on them."

Anne was alert to response of stick and rudder to the light almost imperceptible pressure put upon them.

"When we are in the air," Captain Douglas went on, "I will show you again how even a slight movement of the rudder and the stick controls the plane."

Her instructor signaled the attendant mechanic to start the engine, and seconds later the prop was whirling and the checks were away from the wheels.

"Look forward, watch the horizon and the nose of the ship as I take off," Dick told her as the ship went into the wind and he "gave it the gun."

THE ship rose in a long, slow climb, above the trees in the pasture beyond the airport, over the clubhouse of the nearby golf club, and then it leveled off, its nose pointed directly at the horizon.

Once again, Anne was told to follow her companion's motions as he used stick and rudder. At each change in pressure, she was conscious of the response of the ship. Her hand was holding the stick and her feet were upon the bar, the nose of the ship on the horizon, when she glanced at her instructor, and saw that his hands were resting on his knees, and that his feet were not on the rudder bars.

The realization that she was flying the plane herself terrified her momentarily and she clutched firmly upon the stick, pressing heavily to the right on the rudder bar. The ship turned to the right, but Captain Douglas shook his head.

"Not so hard," he warned, as he took over the controls himself. Anne relaxed at once and her touch again was light and easy as she followed his actions.

Before long, the handling of controls was given to her again, and this time, she used her hands and feet in an attempt to co-ordinate the controls properly.

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

Will Announce Location
A crowd of several thousand persons is expected to witness the Derby, which will be staged on one of the city's principal streets. In fairness to all contestants, and to reduce chance of accident before the race, the Soap Box Derby committee will not announce the location of the race course until a day or so before the race.

This decision was reached when it was realized that many of the contestants might try to test their cars on the course while the street was being used by traffic. The location of the Derby will be made known in ample time, and will be roped off and closed to traffic on the day of the race.

Members of the Exchange club who are co-sponsors of the race with the Cornbelt Chevrolet Company and Journal and Courier, spent a busy evening Monday discussing plans for the Derby. The club has been organized into committees to handle all details. Milton Edge is general chairman of the Soap Box Derby.

It has been a long time since juvenile Jacksonville was steamed up so thoroughly over a sporting event. Each youngster who has entered a car will have a flock of roosters, fathers, mothers and other adults interested in the racers will line the course to cheer their favorites.

Helmet For Each Boy
The all-metal helmets which will be given to each driver, and are now on display at the Illinois Iowa Power Company, have taken the eyes of Jacksonville boys. Each driver will become permanent owner of a helmet on the day of the race.

A number of business establishments are preparing to sponsor boys in the race, while others will compete without a sponsor. Names of shops and stores will appear on some of the race cars.

The young fellow who wins the Jacksonville race will put himself in line for plenty of action and excitement. In addition to receiving a handsome trophy and the plaudits of the crowd, he will prepare for the trip to Akron where the national and international Soap Box finals will be held August 11. This journey to one of the greatest juvenile sporting events in the world will not cost him a penny.

When the contestants speed down the million dollar race course in Akron, the Jacksonville champ will be among them—in front at the finish, we hope! The champion and runners-up of the Akron finals will receive many valuable prizes including scholarships, automobiles and other acceptable gifts.

The Entry List
The entry list for the Jacksonville Derby as announced by the committee is:

"HOLD IT, CHAMP!"

The most exciting moment in boyhood's adventures—victory in the All-American Soap Box Derby. Clifford Hardesty, White Plains, N. Y., 1939 Derby king, receives the victor's trophy from M. E. Coyle, general manager, Chevrolet Motor Division, as newspaper cameramen, news photographers, and radio announcers record a thrilling event. And all the nation sees and hears the story of a great victory in a great sports event! A boy from the Jacksonville community will have a chance this summer to win glory for the winner of the All-American Soap Box Derby here August 1 will go to Akron to compete in the national and international finals. The Jacksonville champ will be sent to Akron with all expenses paid, the local event being sponsored by the Exchange Club, Cornbelt Chevrolet Company and Journal and Courier.

Thirty Boys Enter Soap Box Derby; August 1 to Be Day of Many Thrills

Back in June when the Jacksonville All-American Soap Box Derby was first announced, the date of August 1 seemed a long time away. Boys who made plans to build Soap Box race cars thought of the thrilling day as in the distant future. But time has passed—a way that time has—and the day of the big race is scarcely more than one week away. On Thursday, August 1, just a week from next Thursday, some skilled and fortunate boy of this community will ride down the ramps and coast right into a handsome trophy and a free trip to Akron, Ohio, where he will have a chance to win still greater honors.

Thirty boys between ages of 11 and 15 years have built Soap Box race cars and officially entered the event by registering at the office of the Corn Belt Chevrolet Company. A number of others are putting the finishing touches to their cars and will enter during the next few days. The field is expected to total 40 or more when the racers line up for the starter's signal.

STARLINGS In West End Blitzkrieged Here Last Night

Starlings in the West part of Jacksonville were "blitzkrieged" last night by a dozen armed citizens.

The corps of men, armed with shotguns and directed by Floyd Sanders, conducted a seething attack against the perennial pests. The barrage was successful in keeping the birds on the wing and preventing them from alighting in the neighborhood. Though the main purpose of the gunfire was not to kill the birds, quite a number of the starlings were brought down.

The "anti-aircraft" attack began at 7:45 and continued until dark. The shooting attracted considerable interest from motorists and residents of the second and fourth wards.

Illinois Methodist Conference Sept. 10; Reopen 2 Churches

Services Resumed at Chapin And Valley City After Long Inactivity

The Illinois Methodist Conference will open its annual session in Bloomington, Sept. 10. Dr. Raye Ragan, district superintendent, said Tuesday. The huge conference will be entertained by Grace Methodist church and Wesleyan University. One of the features on the program will be the inauguration of Dr. E. W. Shaw, the new president of Wesleyan.

The annual Educational Banquet will be held in the Consistory Building, and plans are being made to hold the large Sunday service and ordination of ministers in the Wesleyan gymnasium. The conference of United Methodists has become so large that no church can be found large enough to accommodate the more important mass gatherings of the session.

One result of the union in the Jacksonville district, Dr. Ragan said has been the reopening of two churches, where services had been suspended for more than a decade. The Methodist Protestant church at Chapin, which had been inactive for 12 years, and the Methodist Episcopal church at Valley City, where services had been suspended for ten years, have resumed services under the pastorate of Rev. James Kidd, a student at Illinois college. Increasing attendance at both churches are reported.

The church at Chapin has a pipe organ and has been well cared for during its period of inactivity. The church at Valley City has also been well kept. There is a considerable field for work in both communities.

Confused Minds
"I cannot begin to describe the confused minds of the soldiers, who fought every inch of the way home—to finally reach home and the rest camps prepared for them," young Zachow wrote. "There were no noise, no sign of war, just complete quiet. Men who had walked 35 miles a day, some who had not had their shoes off in three days, walked about in bare feet, ate often and as much and when they pleased."

"They went swimming or did anything they wanted to do. The change was so extreme that some fellows who proved themselves hard as nails in battle broke down and cried simply because they could not control it. But that was three weeks ago—it seems like a century longer. Then there was the new B.E.F. and subsequent withdrawal and now talk of a French armistice."

"There have been raids on England but none has been effective. I have been hoping for America to come in but that seems to be a forlorn hope at present, the American papers sound as if it were in. Your papers give a pretty fair account of what is going on and are accurate. We get the papers from home and can judge knowing first hand. After this war is over the American Legion man tries to tell me we had it easier there; going to be another war right on the spot."

Dig Trenches
"We still dig trenches with shovels, peel potatoes with jack knives, we still march to where we are going, sleep on the ground and it still rains, and rain is as wet here as it is at home—the sun is just as hot as it is at home on the flat prairie. However, we have concerts in camp, cinema every week and the NAAFI has portable radios, so we get music and the news."

"Then there are the 'Pubs' as the taverns are called here—open at noon to two p. m. and from six to 10 p. m. You'd be surprised, but it is very seldom we can spend our own money. The people insist on treating us, especially the Scotch. I could live for a year in Scotland just keeping the invitations to spend my leave with people there. I don't know where the joke of the fight Scotchman originated, but I couldn't have come from a Canadian soldier. Everything we want is ours at no cost to us."

Here the writer says he was interrupted for two days in his letter writing, adding the "some of the fellows here have received letters saying that the Survey battery has been reported wiped out through a news broadcast. If this sort of thing has reached your ears don't believe it."

"There have been raids on England but no real damage as yet. We are in a critical stage here in England, but don't worry about me unless you have not heard from me in four months or so." At the close of his letter young Zachow adds a postscript saying: "There's an air raid on now—we are getting used to them."

Dunkirk Retreat Is Described by Youth; Sees Action In War

James Zachow Writes About Life In Army; Formerly Of This City

"It has been broadcast that the First Survey Regiment Royal Canadian Artillery, was wiped out in the retreat of Dunkirk," says a former Jacksonville youth, a member of that regiment in a letter to a friend, here. "But if news like this reaches your ears don't believe it," he writes. The youth is James Zachow, son of a late Edwin Zachow, former justice of the peace here. Harry Herring of this city received the interesting letter from Zachow.

Young Zachow started his letter the latter part of June and after some interruptions mailed it on July 4 from England. "So many things have been happening during the last three weeks or month," he says.

"First there was the retreat from Dunkirk, a most magnificent feat. It is a wonder so many of us should arrive safely under such terrific handicaps, but did. Before this was the collapse of Belgium. It was probably responsible for it. Then there was the re-embarkation of the B.E.F. only to be withdrawn because of France. But again we are ready for it—here or elsewhere."

"We still dig trenches with shovels, peel potatoes with jack knives, we still march to where we are going, sleep on the ground and it still rains, and rain is as wet here as it is at home—the sun is just as hot as it is at home on the flat prairie. However, we have concerts in camp, cinema every week and the NAAFI has portable radios, so we get music and the news."

"Then there are the 'Pubs' as the taverns are called here—open at noon to two p. m. and from six to 10 p. m. You'd be surprised, but it is very seldom we can spend our own money. The people insist on treating us, especially the Scotch. I could live for a year in Scotland just keeping the invitations to spend my leave with people there. I don't know where the joke of the fight Scotchman originated, but I couldn't have come from a Canadian soldier. Everything we want is ours at no cost to us."

Here the writer says he was interrupted for two days in his letter writing, adding the "some of the fellows here have received letters saying that the Survey battery has been reported wiped out through a news broadcast. If this sort of thing has reached your ears don't believe it."

"There have been raids on England but no real damage as yet. We are in a critical stage here in England, but don't worry about me unless you have not heard from me in four months or so." At the close of his letter young Zachow adds
